### BLOCK DIAGRAM OF PIXEL E

## TECHNICAL SPECIFICATIONS

<b>General</b>	
<b>Parameter</b>	<b>Value</b>
CMOS technology	0.13 $\mu\text{m}$
Pixel matrix	256 x 256
Pixel size	55 $\mu\text{m}$ x 55 $\mu\text{m}$
Design	CERN
Features	<ul style="list-style-type: none"> <li>• sensor pixel can be same or four times the size of readout pixel (fine pitch and spectroscopic modes respectively)</li> <li>• Region of interest readout possible selecting either 32, 64 or 128 column blocks and or a number of rows to be readout</li> <li>• Chip IO connected through WB or TSV (dicing) to minimize dead area</li> <li>• Charge summing architecture</li> <li>• High gain mode (HG, lower linearity, lower noise) or low gain mode (LG)</li> <li>• Configurable counters 1, 4, 12, 24-bit</li> <li>• Data acquisition and readout sequential or continuous (dead time free)</li> <li>• 2 thresholds (adjustable independently per pixel with 5 bits)</li> <li>• Hit rate 100 KHz?</li> <li>• 4-side buttable (after dicing)</li> </ul>
Power supply	4 power supply domains: (1) analog core 1.5V (2) digital core 1.5V (3) digital IO 2.5V (4) analog IO 3.3V (last one only for e-fuse programming)
Number of transistors	~115 million
<b>Analog front end (pixel cell)</b>	
<b>Parameter</b>	<b>Value</b>
Baseline shift preamplifier output	
Signal polarity	Positive and negative
Detector capacitance	
Leakage current	
Time to peak	110 ns
Noise	85 e <sup>-</sup> (SPM); 180 (CSM)
Analog static power consumption	15 $\mu\text{W}$ (CSM); 9 $\mu\text{W}$ (SPM)
Analog power consumption	600mW (SPM); 900mW (CSM)
<b>Digital part (pixel cell + periphery)</b>	
2 counters/shift registers	12 bits (11810 counts)
periphery	<ul style="list-style-type: none"> <li>• 25 DACs (10 9-bit and 15 8-bit) to set voltages in the chip</li> <li>• power pads</li> <li>• LVDS drivers and receivers (configuration of the chip in serial mode)</li> <li>• Parallel data port configurable to 1, 2, 4 or 8 LVDS lines</li> </ul>

Readout time 8 parallel LVDS lines (200 MHz clock)	500 us (1.6 Gbps)
Digital power consumption (200 MHz)	250mW
